Alas! we are selling
In the woods with all
its memories and all
these precious trees
& plants which Marian
and I planted on it
with our own hands!

Life moves us on
and we cannot keep
it going any longer
Dr Merrett who is
buying it takes plants
and well I hope
care for my pile.

Oct 14th 1926

Record Book
of

The Plants on the
"Placz in the Woods"
owned by

Mr and Mrs David Fairchild
North Chevy Chase
Md.

A reward will be paid
anyone returning this
to the owners if lost.

8922 Spring Valley Road
Chevy Chase, Maryland 20015

This notebook, until 1978, was in the safe keeping of Mrs. Edgar M. McPeak, 3133 Connecticut Ave., Washington, D.C. She was the daughter of Dr. Edwin Atkins Merritt, who bought the property from Dr. & Mrs. David Fairchild in 1926. Dr. Merritt died in 1946 after spending much energy in building up the garden at "In the Woods." The property was sold in 1954 to the Chevy Chase Recreation Assn.

1119 Cherry Choshu. ditto III

120 Cherry "pendula" ditto III

Cherry - Wassameyako

ditto III.

Early metropolitan variety.

121

Cherry Asagi ? ditto III.

122

Doing very poorly Oct. 18-1912 Has some
+ eaten on it.

Apr 23 1916, no blooms fully out yet

Cherry Pendula ditto III.

123

124 Cherry Choshu. ditto III.
Oct 13-1912 - Long poorly. 15-shelled.

125 Cherry Bawping ditto III

126 Cherry Asagi. ditto III

Mr Watanabe says this is a green flower
variety -

1916 ~~for~~ no bloom out yet but buds fully formed

This is ~~the~~ a green flowered variety.

Cherry Choshu ditto III 127

Diospyros Virginiana, wild 128
seedling, Sta S.E. of 2nd telegraph
pole, 7 ft high. Nov 16-07.

Cherry "Pendula" ditto ~~II~~ 129
on line of drain.

130 Cherry Sugashidone

Due of drain ditto III.

1916 Apr 28. in full bloom. Fl. more single than Ojochin. sepals serrate, whereas Ojochin are not. distinct but beautiful variety. Almost pure white.

131 Cherry Daigori. - River of Sewer. ditto III.

Not in Miyoshi

1914 May 1. Single white \leftarrow branch \rightarrow
very airy & graceful in the way the flowers are scattered all through the tree. Fl. not born on tips of branches.

1916 Apr 23. about $\frac{1}{8}$ of blooms ready out.

132 Cherry Jobani. - River of Sewer ditto III.

Not in Miyoshi.

Due East of S.E. corner of study. South of 136. East of tree close to corner

In poor health Oct 12/1912

1914 May 1. Very full of flowers. Looks like wild single cherry. In clusters of four. about as attractive as a plum, not more so.

Study

Cherry Wadamizako. Pin 133
of same ditto III. (Not in Miyoshi)

Cherry Higuroshi. Pin 134
of same ditto III. Fig. 64. Miyoshi

Catalpa of Bungeans. Pin 135
China Arnold Arboretum Long 52
W. pl. 3. Bungeans. Same 51 garden
3. pl. or cut down by accident

136

Almost due E. of N.E. Cor. of my study.

1914 May 2. One head of buds half open.
a great quantity of fully opened flowers.
The fullest of flowers of any. I don't think
I like the brownish cast of the blooms, though
they are certainly effective. Very double many
small petals.

Not the Usuzumi.
